Electric Water Cure. THE undersigned has taken the large House on the hill in South Nashville, at the head of Front street, known as the Rutledge property, where he has established a comfortable home for invalids, and provided ample means for their restoration to health. Patients from the country and strangers taken sick in the city can find gentle nursing and appropriate medi-cal attendance. Our treatment in Caronic Diseases consists of Water Electricity, and the most effective medicine and Homospathy in all Acute and Februle riseases, and in all cases our charges will be mode

rate and to suit the times.

The institution is located in a field of 17 acres, containing fine shade trees and pleasant grounds for exercise for convalescents. From the house, we have the finest prespective view of the city, Cumberland river, and surrounding country, afforded in any other part f the city.

As far as regards our success in practice in the heal ing art, we will only say we have now been in Nash-ville one year, and our register will show the names of over 150 patients, treated for various diseases, most of them hopless cases of Chronic Diseases, and 31 of whom were confirmed cases of Consomption, and out of the whole number of 150 odd cases treat-

ed, only 6 have died, all of whom were given up as hopeless before I saw them, and every one of the rest have been cured, or at least greatly benefitted. For the protection of others, we can receive into his institution no patients having contagious diseases out will attend to such at other places. Family practice attended to as usual. P. A. WESTERVELT, M. D.
Office Colonade Block, No. 53 1/2 Cherry Street.

Office hours from 8 to 10 e'clock A. M., and from 1 to 3 e'clock P. M., every day except Sunday. At all other times I can be found at the Electric Water Cure

as above.

Though we are opposed to publishing certificates to show that we can control diseases supposed to be incurable, we will re-publish the following letter of a well-known citizen to the editor of the Republican Banner, of Dec. 30th, 1860:

Mr. Eprros: Having been afflicted for some months past as is known by my many acquaintances, with past, as is known by my many acquaintances, with an attack of paralysis, and having received a benefit so decided from the use of electrical baths, given me by fir. Westervelt, I have thought it due to those simi-larly situated with myself, to make this publication. I was decidedly convalescent when I began to use the baths, but the benefit derived from them has been so positive that there could be no mistaking the cause. I am now able to use my fingers and my arms, which were entirely helpless, almost, if not quite, as well as

I know this notice may inure to the benefit of Dr. W., at least with those who place confidence in my word, but to me it is a matter of much greater inpor-tance that my friends should know where they can be relieved from the state of helplessness I was in a short time since.

The common belief that much of the uncertainty of Medical Practice arises from the bad quality of Medical substances, seems to acquire daily confirmation. Through faulty preparation and commercial competition, many preparations formerly regarded as of primary importance are gradually going out of use, while others produce effects and cause accadents that do not properly belong to them as described in the Pharmacopea. New remedies, as suggested and offered for trial are often found so imperfect, and varying so much in chemical character and strength that they are either condemned or received upon false premises, both equally at variance with the proper progress in therapeutics; whilst most practitioners daily feel that the Materia Medica is not rich enough either to lose facts warrant the Subscribers in manufacturing and vending none but First Class Standard Preparations, with direct reference to the necosities of the profession and the requirements of the Pharmacopea. Our Chemicals, Powders, Tinctures, Essential Oils, and in fact all of our Medicinal Preparations are selected and compounded with a view to the quality only, without regard to price. The class will be taught by the use of such the use of such tions as will lessen learner one half. The present slow and cumbersome suited the age of flat boat and mule cart travelling; but the age of steamboats and railroads requires the Pen not to waste seven-eighths of the time of the writer. The people of Nashville have paid dearly for being grossly deceived in regard to the utility of this art, and the ease with which it can be learned, but for which deception the pupils of the Public Schools might have had its advantages free of expense, instead of having the Schools the theater of private speculation, under the sanction of "the place-men of education."
